

2 CLINICAL SERVICES OFFERED

2.1 Histology

The Histology department is both UKAS and HTA accredited and offers a comprehensive histology service to users.

The following sub-specialities of histology are covered by in-house pathologists:

- ✓ Breast
- ✓ Urology
- ✓ Gynaecology
- ✓ Upper GI
- ✓ Lower GI
- ✓ Respiratory
- ✓ Renal
- ✓ Lymphoma
- ✓ Dermatology
- ✓ Head and neck
- ✓ Endocrine
- ✓ Soft tissue and bone
- ✓ Post mortem Histology
- ✓ Non Gynaecological Cytology

The Consultant Pathologists contribute to all relevant multi-disciplinary team meetings. Occasionally a case of any sub-specialty may be referred to a Consultant pathologist at another centre. If this happens reference is made in the text of the histology report.

As well as routine histological techniques the laboratory has a comprehensive special stain and Immunocytochemistry repertoire available to aid pathologists in producing diagnoses. The department also provides an Immunocytochemistry Her2 testing service.
