

## 2 CLINICAL SERVICES OFFERED

### 2.2 Cytology

The cytology department provides HPV testing and screening for Gynaecological samples and a wide variety of non-gynaecological cytology processing.

#### 2.2.1 Cervical Cytology

**Please refer to the North East and Yorkshire Cervical Screening Centre on the services section of the Web page.**

#### 2.2.2 Non-Gynaecological Cytology

Our non-gynaecological cytology services include fine needle aspiration (FNA) as well as exfoliative cytology.

Services available:

- ✓ Exfoliative cytology
- ✓ Biomedical scientist (BMS) assistance in slide preparation and on site specimen adequacy assessment at radiological and ad hoc FNA clinics. Please note the BMS staff do not perform the aspirations.

The staff in the laboratory will be pleased to advise and assist on any aspect of sample collection and preparation.
